

1<sup>st</sup>: Click DNA then  
select Results  
Summary

2<sup>nd</sup>: Click Settings

The screenshot shows the AncestryDNA website interface. At the top, there is a navigation bar with 'ancestry' logo and links for Home, Trees, Search, DNA, Health, Help, and Extras. A 'Settings' gear icon is visible in the top right. Below the navigation bar, a dark header area contains the text 'Hello, DONNA' next to a profile picture. A dropdown menu is open under the 'DNA' link, listing options: 'Your DNA Results Summary', 'DNA Story', 'DNA Matches', 'ThruLines™', 'Personal Discoveries Project\*', 'Activate A Test', and 'Buy Another Test'. Below the header, there are several content blocks: 'Add AncestryDNA® Traits' with a 'Learn more' button, 'DNA Story' with an 'Ethnicity Estimate' pie chart showing 44% England & Northwestern Europe and 35% Scotland, and 'DNA Matches' with a grid of profile pictures. A 'Charlene's Mini I...' button is visible on the right side.

Once on the  
settings page, scroll  
down to Actions.

Manage which emails you receive from us:

### Actions

#### Download DNA Data

Please enter your Ancestry account password. You'll receive a confirmation email and download instructions at the email address associated with your Ancestry account.

Password [Forgot Password?](#)

\*\*\*\*\*

I understand that after my DNA data is downloaded, the downloaded copy will not be protected by AncestryDNA's security measures. When I download my DNA data, I assume all risk of storing, securing, and protecting my downloaded data.

The downloaded data is subject to the [AncestryDNA Terms and Conditions](#) and [AncestryDNA Privacy Statement](#).

**Confirm**

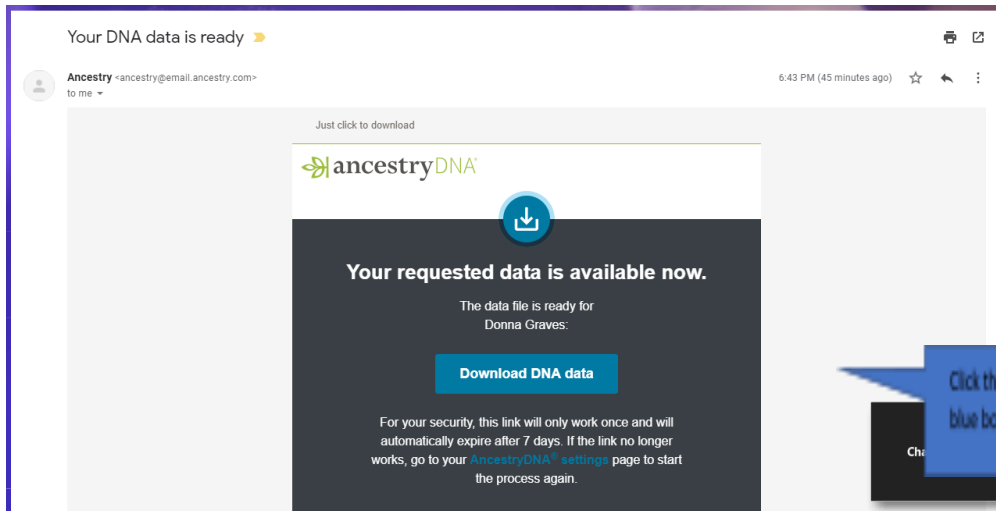

#### Delete DNA Test Results And Revoke Consent to Processing

You will need to enter your password to delete your DNA test results.

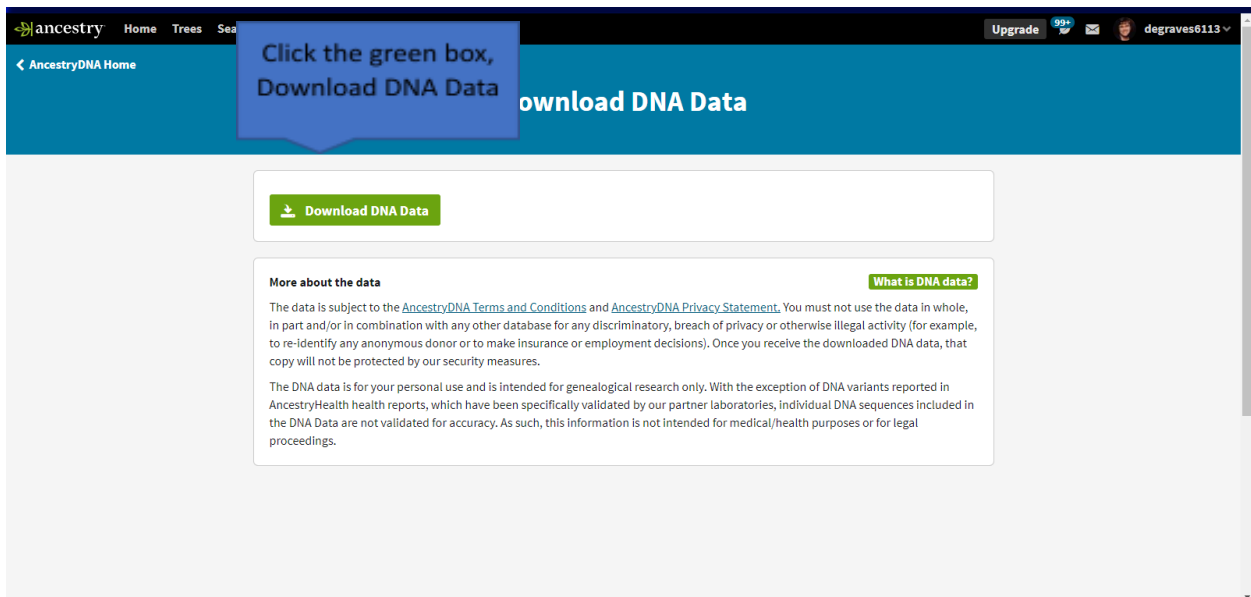

Reenter your  
password, click the  
checkbox  
(highlighted here in  
green) then click  
Confirm

Charlene's Mini I...

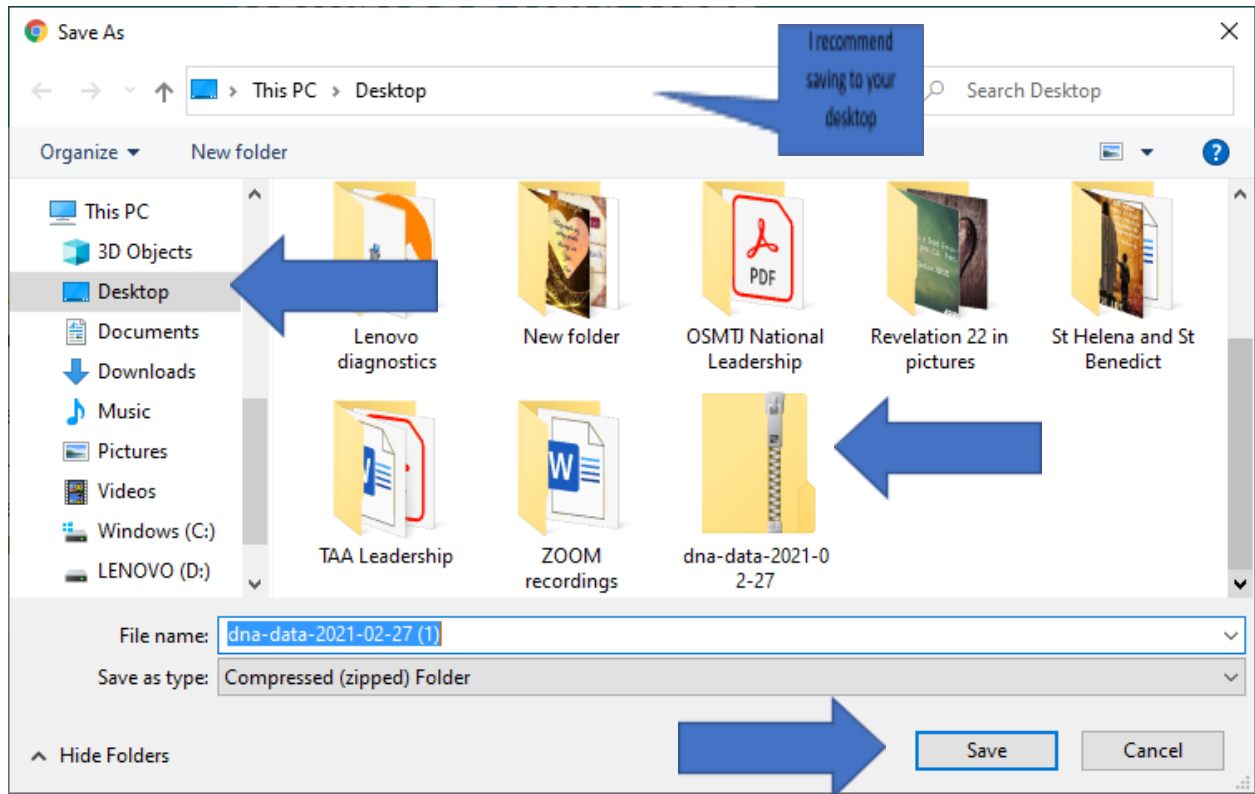

Ancestry will send you an email when your download is ready:

You will then be redirected back to Ancestry...

A file folder will open. It's VERY important to pay attention to where the files are being saved to (for uploading to GEDmatch).

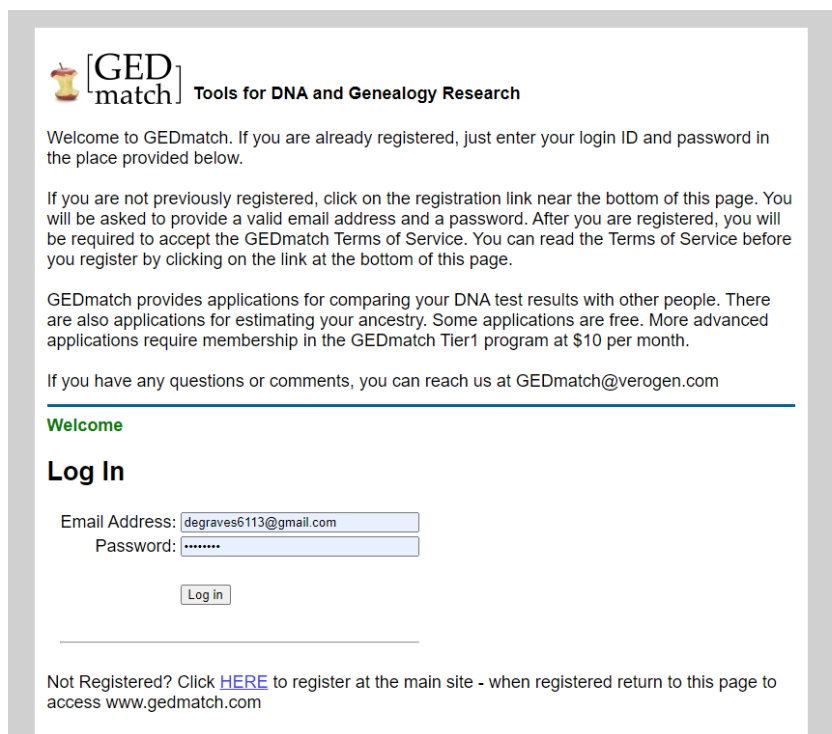

Once you choose the location to put your data, click the save button at the bottom

Now, let's go to GEDmatch.com and log in. If you've never used this site, you need to create your free account before uploading your data file.

Now, let's log in!

**GEDmatch** Tools for DNA and Genealogy Research

Welcome to GEDmatch. If you are already registered, just enter your login ID and password in the place provided below.

If you are not previously registered, click on the registration link near the bottom of this page. You will be asked to provide a valid email address and a password. After you are registered, you will be required to accept the GEDmatch Terms of Service. You can read the Terms of Service before you register by clicking on the link at the bottom of this page.

GEDmatch provides applications for comparing your DNA test results with other people. There are also applications for estimating your ancestry. Some applications are free. More advanced applications require membership in the GEDmatch Tier1 program at \$10 per month.

If you have any questions or comments, you can reach us at [GEDmatch@verogen.com](mailto:GEDmatch@verogen.com)

**Upload your DNA files:**

- Generic Uploads (23andme, FTDNA, AncestryDNA, most others)**

**DNA Applications:**

- One-To-Many **Beta - give it a try**
- One-To-Many DNA Comparison Result
- One-to-One Autosomal DNA Comparison
- One-to-One X-DNA Comparison
- Admixture (heritage)
- Admixture / Oracle with Population Search
- People who match both, or 1 of 2 kits
- DNA File Diagnostic Utility  
Analyze DNA file upload for potential problems.
- Are your parents related?
- 3-D Chromosome Browser
- Archaic DNA Matches

Fill out the form shown on the next 2 screenshots. I don't recommend an alias (or we can't find you in the Family DNA project). You **must** select WHOSE DNA you are uploading.

Uploads of kits for law enforcement purposes, including unidentified remains of a deceased person, need to be completed on GEDmatch PRO, click [HERE](#) to access.

Your Email Address will be associated with this kit: degraves6113@gmail.com

Name of Donor:

Please use the DNA donor's real name here. If you don't want the real name displayed, you may also enter an alias in the box below.

Alias (optional):

If you don't want the donor's full name displayed, you may substitute an alias. Otherwise, leave this blank. If you enter an alias here, it will be shown on report pages instead of the name you entered above. The alias should either be similar to your full name, or the same as the 'screen name' that you use on forums. GEDmatch site administrators reserve the right to remove any alias that is not appropriate in their opinion.

Sex of donor:  Male  Female

What is your Mitochondrial haplogroup (if known)?

Males Only (or females with a male sibling who has been tested): What is your Y haplogroup (if known)?

Name of Testing Company, or other source:  Company or Source:  Other:

When you upload Raw Data to GEDmatch, you agree that the Raw Data is one of the following (select one):

- Your DNA;
- DNA of a person for whom you are a legal guardian;
- DNA of a person who has granted you specific authorization to upload their DNA to GEDmatch;
- DNA of a person whose identity is known by you and who is known to be deceased;
- Your DNA;
- DNA of a person for whom you are a legal guardian;
- DNA of a person who has granted you specific authorization to upload their DNA to GEDmatch;
- DNA of a person whose identity is known by you and who is known to be deceased;
- An artificial DNA kit (if and only if: (1) it is intended for research purposes; and (2) it is not used to identify anyone in the GEDmatch database); or
- DNA obtained from an artifact (if and only if: (1) you have a reasonable belief that the Raw Data is DNA from a previous owner or user of the artifact rather than from a living individual; and (2) that previous owner or user of the artifact is known to you to be deceased).
- Anonymized sample for a donor to a large scale population study; Please contact GEDmatch administrators for populations greater than 50 individuals.
- None of the above (your upload will not be accepted).

Select one of the following privacy options for this kit:

- Opt-in: This kit will be shown in match results for all other kits in the database. The operators of GEDmatch encourage everybody to select this option unless they have specific reasons not to.
- Opt-out: This kit will be shown in match results for all other kits in the database, except for kits of violent crime perpetrators identified as being uploaded by law enforcement representatives.
- Research: This kit will not be shown in match result reports generated for other kits. Genealogy and Genetic Genealogy require the sharing of information. This option is provided primarily for artificially created research kits, but may be used for regular uploads if you have specific reasons for doing so.
- Private: This kit will not be available for any matching. The kit will be in the database, and it will be batch processed, but no comparison results will be shown unless this privacy setting is changed by you later. Click on "Choose File", "Browse", or similar wording (depends on your browser) to find the raw DNA data file on your computer. Your data must be Build 37 (GRCh37 hg19).  No file chosen

Click "Choose File", "Browse", or similar wording (depends on your browser) to find the raw DNA data file on your computer. Your data must be Build 37 (GRCh37 hg19).  No file chosen

MAKE SURE YOU WAIT FOR THE NEXT SCREEN, AND THE PROGRESSION DISPLAY THAT SHOWS AS EACH CHROMOSOME IS PROCESSED. THIS PROCESS TAKES SEVERAL MINUTES. IF YOU DON'T WAIT FOR IT TO FINISH, YOUR DATA WILL NOT BE USABLE. HOWEVER, IF YOU DON'T SEE ANY ACTIVITY FOR MORE THAN 10 MINUTES, YOU HAVE PROBABLY LOST YOUR CONNECTION AND SHOULD QUIT!

Selection of 1 required

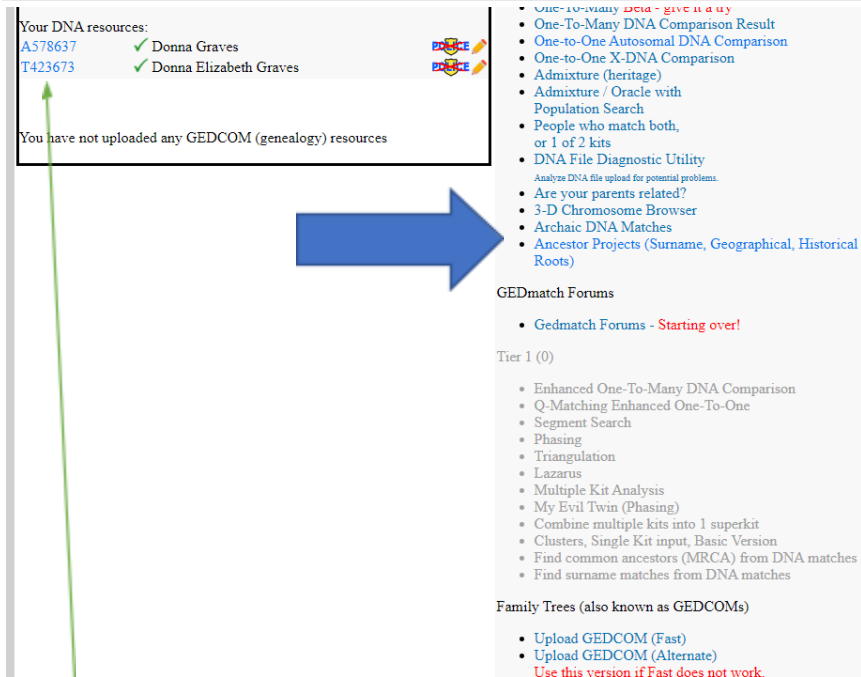

Privacy selection defaults to opt-in for law enforcement access

Click **Choose File**: a folder will open, make sure it is to the location you saved your DNA data file to (desktop if you followed the above guidance)

Then click **Upload**

**MAKE SURE YOU WAIT FOR THE NEXT SCREEN, AND THE PROGRESSION DISPLAY THAT SHOWS AS EACH CHROMOSOME IS PROCESSED. THIS PROCESS TAKES SEVERAL MINUTES. IF YOU DON'T WAIT FOR IT TO FINISH, YOUR DATA WILL NOT BE USABLE. HOWEVER, IF YOU DON'T SEE ANY ACTIVITY FOR MORE THAN 10 MINUTES, YOU HAVE PROBABLY LOST YOUR CONNECTION AND SHOULD QUIT!**

Once your data is uploaded, you can return to the home screen to join the Ancestor DNA Project!

The screenshot shows the GEDmatch interface. On the left, under "Your DNA resources:", there are two entries: "A578637 ✓ Donna Graves" and "T423673 ✓ Donna Elizabeth Graves". Below this, it says "You have not uploaded any GEDCOM (genealogy) resources". A green arrow points from the text "DNA resources" in the main text to the "Your DNA resources:" section. A blue arrow points from the "Your DNA resources:" section to the "GEDmatch Forums" section. The right side of the interface lists various analysis options under "GEDmatch Forums":

- One-to-Many DNA - give it a try
- One-To-Many DNA Comparison Result
- One-to-One Autosomal DNA Comparison
- One-to-One X-DNA Comparison
- Admixture (heritage)
- Admixture / Oracle with Population Search
- People who match both, or 1 of 2 kits
- DNA File Diagnostic Utility  
Analyze DNA file upload for potential problems.
- Are your parents related?
- 3-D Chromosome Browser
- Archaic DNA Matches
- Ancestor Projects (Surname, Geographical, Historical Roots)

Below this is "GEDmatch Forums" with a link "Gedmatch Forums - Starting over!". Then "Tier 1 (0)" with a list of analysis options:

- Enhanced One-To-Many DNA Comparison
- Q-Matching Enhanced One-To-One
- Segment Search
- Phasing
- Triangulation
- Lazarus
- Multiple Kit Analysis
- My Evil Twin (Phasing)
- Combine multiple kits into 1 superkit
- Clusters, Single Kit input, Basic Version
- Find common ancestors (MRCA) from DNA matches
- Find surname matches from DNA matches

Finally, "Family Trees (also known as GEDCOMs)" with links:

- Upload GEDCOM (Fast)
- Upload GEDCOM (Alternate)

Below these links is the text "Use this version if Fast does not work."

Notice the "DNA resources" to the left! That number is your GEDmatch number (in case anyone asks to analyze your DNA against theirs) and is a link that you can click to view ALL of your matches in the entire GEDmatch database! There will be hundreds, if not thousands!

Once you click the Ancestor Projects link, you can search for whatever Project you choose, click join and their admin will admit you if you meet their criteria.

Once in the group, you can run your GEDmatch number (copy/paste), set your threshold (default is 7), click "Submit" and wait until it returns your report. Notice I lowered my threshold to 3.

DONNA GRAVES
